### Castigates Showing "Bill" Hart Movies; Bad Effect On Boys

TORONTO.—Why the government allows moving pictures to be shown in this country of men like "Bill" Hart who portray the characters of bandits and hold-up men, is beyond my comprehension, said Magistrate Brunton, in county police court.

Admonishing three young boys who appeared before him on a charge of stealing grapes, he declared that the cause of a great many juvenile delinquency cases could be traced to the idolization of such "heroes" by immature minds.

In his speech in Calgary the other day, H. W. Wood, president of the U.F.A., said: "Today the farmers lie prostrate in Alberta. They can never rise under present conditions." In the past, conditions generally have always been blamed on our Legislatures and Federal Governments. Can it be that Mr. Wood is now delivering a solar plexus blow at the administration at Edmonton which he is largely responsible for placing in power?

### Government to Reduce Public School Grant

Government aid to public schools in various parts of Alberta in the way of loans to rural school districts, for continuing operating costs will be considerably reduced this year. The policy of making such loans through the department of education will be continued on similar lines as last year but only in absolutely necessary cases and on a basis everywhere of shorter school terms, the minimum of government assistance with schools to correspond, being the rule.

It is expected that the amount of money to be paid out in this way will not exceed for 1922-23 about \$100,000 as compared with \$300,000 for 1921-22.

# Allies Yield To Most Of Demands Of Victorious Turks

Paris.—The return of the Turks to Europe was assured when Great Britain, France and Italy, at the final session of the Allied conference, unanimously agreed to concede all the nationalist peace terms. The Turkish claims to Eastern Thrace, the Taurus River, and including the ancient Turkish capital of Adrianople, were approved as peace terms that can be supported by France, Great Britain and Italy in a joint invitation sent to Mustafa Kemal Pasha, the Nationalist leader, to a peace conference to be held at Versailles at the earliest possible date.

The Kemalists must agree, in return, not to enter the zone of the zone along the Straits, nor make any crossing elsewhere, and must accept complete freedom of the Dardanelles, and the Sea of Marmara, and Bosphorus, preferably under the League of Nations.

In addition to other concessions Turkey is promised the support of the three Allies for admission to the League of Nations and also withdrawal of the Allied troops from Constantinople as soon as peace becomes effective.

The Allied decision came as a big surprise, for as late as Sunday British officials declared that Great Britain would not approve of any of the Turkish claims in advance of a peace conference. The change in this policy came after an exchange of many messages between Lord Curzon and Premier Lloyd George, and a long telephone conversation. Although the British insist that their chief demand, namely, freedom of the Straits, is embodied in the conditions, it is generally conceded that this unanimous decision marks a reversal of policy on the part of Great Britain and is considered here a victory for French diplomacy. M. Poincaré expressed the belief that the Near East crisis is over—that all danger of a clash is past.

It is assumed that the British troops will remain at Chancé pending the peace conference. A broad neutral zone will divide Eastern Thrace from Greece and Bulgaria. In the treaty terms which will be discussed at the conference. Both Jugo-Slavian and Rumanian insisted upon this provision before they consented to the return of the Turks to Europe, although it is not mentioned in the note. It is thought that the Turkish military forces in Thrace and Adrianople will be rigidly limited and that the strictest guarantees will be exacted for the Greek minorities in these places.

**Raid On Liquor Houses**  
Windsor, Ont.—More than half a million bottles of beer, ale and port, are being held by provincial authorities following a series of raids on brewery company warehouses near this city. The raids were made under order of Hon. W. R. Baines, Attorney-General, in connection with charges the companies with failing to make proper returns of the liquor sent out of the country.

**Want Union Jack Displayed**  
Toronto.—The Canadian Declaration of Labor has passed a resolution urging the Dominion to make compulsory the carrying of the Union Jack at the head of all parades and demonstrations throughout the Dominion.

# Freedom Of The Seas Is Involved In U. S. Seizure Of British Boat

Washington.—Unless the defendants take an appeal from the decision of the Federal Court in Boston and permit a higher tribunal to pass upon the claim of the United States prohibition navy to jurisdiction over the boat beyond the three-mile limit, the British Government is expected here to take up the subject diplomatically with the State Department.

Up to the present the British embassy has confined itself to requests for information as to the facts connected with the several seizures and searches of vessels under the British flag by prohibition agents and has made no appearance in the resulting legal proceedings. A complete lack of sympathy with the operations of the rum runner is the part of the British officials is said to have caused the assumption of this attitude but now that cases have begun to emerge from the court dockets, throwing the

## Japs Are Ordered Out Of Russia

Chang Chuan, Manchuria.—The conference, here between the Soviet Government of Moscow and the Far Eastern Republic of Siberia appeared to have reached a deadlock, with the Russian demand that Japan evacuate the northern half of the island of Sakhalin immediately, Japan refuses to do this until she has been indemnified for the massacre of Japanese at Nikolaevsk. In 1920, Admiral Kuroki, from Moscow, laid a flat ultimatum on the conference table when he notified the Japanese plenipotentiaries that the Moscow Government would refuse to sanction the proposed trade agreement between Japan and the Far Eastern Republic so long as "one Japanese soldier remains on Russian soil." Japs continued to insist that the Japanese plenipotentiaries must immediately evacuate Sakhalin as well as Vladivostok.

## Banish Noisy Women

Interrupters at Sitting of Irish Parliament, Maud Gonne MacLennan and Mrs. Charlotte Despard were expelled from the House of Commons. The expulsion was ordered because of their persistent interruption of the proceedings. Widow of the editor of the Irish Citizen, who was executed in Dublin in 1916, interrupted the speaker on the question of prisoners, and, together with another woman who had joined in her protest, was ejected. During the debate on the question, Thomas Johnson, Laborite, moved an amendment to omit the preamble and substitute a declaration of Ireland's sovereignty, accompanied by a statement of the right of the Irish people to the future to annex the treaty on due notice being given. Ernest Blythe, Minister of Local Government, in opposing the amendment, argued such playing with words, and formulas would "only whet the appetites of the traitors, who revel in such theoretic displays."

## Reparation Claims Against Turkey

Armenians New Resident in Canada Ask for Compensation  
Ottawa.—Canada has reparation claims to present against Turkey. While the total will be cannot yet be definitely stated, as the claims are now being rigidly scrutinized at the Reparations Commission, but they run into several millions. Turkish massacres in Armenia are understood to be the responsible for a large part of the claims. In these instances, claims have been presented by former Armenians, now resident in Canada, for losses in Armenia. A number of these claims are said to be obviously inflated, hence the need for close scrutiny.

## RUSSIA WOULD SUPPORT TURKS

WILL LEND MORAL SUPPORT, IF NOT FORCE OF ARMS  
Moscow.—Russia intends to support the Turkish movement, and perhaps give them munitions if they should be needed; but it is considered in Moscow as extremely unlikely that Russian troops will be sent to assist the Kemalists if they attempt to take Constantinople.

While rejecting the Turks to the Allies as the holders of Constantinople, nevertheless it is understood the Soviet leaders have decided to take no steps which might bring them into a real war with Great Britain.

The Russian staff might give advice, either from a distance or on the ground, but no troops will be sent, it is stated here.

Some of the Russian leaders declare Constantinople should be Russian, but next to that they prefer Constantinople Turkish, but strongly influenced from Moscow. Nevertheless the Russian is tired of war and the leaders are pledged to the task of reconstruction.

## Destructive Prairie Fire

Over \$200,000 Loss in Blaze on Indian Reserve  
Lethbridge, Alta.—Two hundred men, white and red, after battling against a terrific prairie fire on the southern slope of the Blood Indian Reserve, north of Cardston, succeeded in putting out the blaze after it had done damage estimated at between \$200,000 and \$250,000. The work was aggravated by a strong wind from the north and was continuing when the night they became a furnace. The fire burned across a 35-mile front taking everything before it. Thousands of tons of hay went up in smoke, besides machinery, camp equipment and supplies. Winter grazing over 100,000 acres was wiped clean. Indians believed to be in the path of the flames are still unaccounted for. Whistlers across the St. Mary's River were warned for a time. The firefighters returned to Cardston and Riley telling of the fury of the fire. It is believed the blaze began ignited by matches, run over by a motor party bound from MacLeod to Cardston, for Indians near the road halted the party just after they had passed, pointing out the blaze and asking for help.

**Canadians Reach Malta Safely**  
Boston.—The American Board of Commissioners for Foreign Missions, headed by Rev. Dr. Alexander MacLachlan, of Kingston, Ont., President of the International Council at Smyrna, saying that he and his family were safe at Malta. The message said that James L. Murray, of Ontario, a member of the college faculty, was also at Malta.

## Large Increase in Wheat Acreage

London.—According to the estimates of the New South Wales Government, says a Hunter dealing from Sydney, the area in the state under wheat cultivation amounts this year to 2,609,000 acres, representing an increase of 170,190 acres over last year's total acreage.

## Asylums For Use Of Territories

Ottawa.—Inmate asylums situated at Ponoka, Alta., Battleford, Sask., and Brandon and Selkirk, Man., have been designated for the confinement of persons becoming insane in the North West Territories. Heretofore there have been no asylums officially designated for this purpose.

## Debt Funding Delegation

London.—Sir Robert Stevenson Horne will be the leading member of the British debt funding delegation that is to visit the United States. The chancellor's purpose, it is stated, is to stay for America, October 18.

## Schooner Wrecked

Nome, Alaska.—The Canadian schooner Olga is a total wreck on the beach at Port Safety, two miles east of Nome.

## WESTERN EDITORS

## New U.S. Tariff Bill

Experiment Likely to Defeat Object For Which It Was Intended  
London.—The new United States tariff bill cannot fail to accentuate the embarrassment of the United States caused by that country's overwhelming creditor position. In the opinion expressed by The Times in an editorial which subjects the new enactment to such criticism.

We join some of the leading financial experts in the United States, the newspaper says, in regarding this experiment as one which should be the object for which it is intended.

The Times finds the explanation why the bill became a law in "the haunting fear of a large section of the American community that the impoverishment of the other industrial European countries may be reflected in the lowering of the standard of comfort in the United States through the competition in American markets of the products of cheap labor abroad."

Consuving the position of the United States and Great Britain. The Times points out that while Great Britain lives by foreign trade the United States is able to restrict its foreign trade to the narrowest limits yet furnished by the development of its wonderful resources. Nations, less, it adds, such unnatural restrictions must be a blow to the general prosperity of its citizens.

## Fire Destroys Crops

Prarie Fire in Rouleau District Causes Much Damage  
Regina.—Fire swept a stretch of country twelve miles long by about three and a half miles in width, destroying close to 2,000 tons of hay, one million granary filled with, bread wheat, and about 50 acres of wheat in stock, in the Rouleau district Thursday night and Friday.

Starting in a wheat field on the farm of Allan Heath, nine miles west of the town of Rouleau, it was quickly fanned from a smouldering mound to a roaring stable fire that burned with the fury of the old time prairie fires. Driven by a high northwest wind, it spread eastward to about ten miles and there checked by some fresh plowed land, it ran in a southerly direction, leaving in its wake close to 50 smouldering hay stacks and hundreds of wheat stacks in a similar condition.

# British Subjects Do Not Change Nationality Within The Empire

## Bolivia and Chile May Have War

Geneva.—The relations between Bolivia and Chile are such that "great difficulties" threaten unless the mediation of a friendly power of the arbitration of the League of Nations can be secured. This declaration is made in a letter received by the Secretary of the League Assembly from Alfredo Gutierrez, Bolivian delegate to the assembly. He points out that Bolivia has been unable to obtain an understanding with Chile by great negotiations regarding revision of the treaty of 1904.

## Says States Should Help Great Britain

Hamilton Man at Cleveland Touches On Turkish Situation  
Cleveland.—The United States should be prepared to co-operate with Great Britain in handling the Turkish situation that the peace of the world may be maintained, declared Sir John Gibson, Hamilton, Ontario, at the 110th council of the Supreme Council, 33rd Degree, Ancient Accepted Scottish Rite Masonry for the North American Jurisdiction of the United States.

Sir John touched upon the Turkish problem in conveying the fraternal greetings of Canadian Scottish Rite Masonry to the Council.

## Big Increase In Grain Movement

Reports Show Considerable Advance On Number of Cars Hauled to Winnipeg—Resumption of large grain shipments from Manitoba ports consequent on dry weather enabling farmers to continue harvesting, combined with augmented receipts from Saskatchewan and Alberta points, brought the Canadian National Railway's movement of cars to 1,175 on Sept. 19 against 683 on the same date last year.

During the present crop season, which commenced September 1, 34,319 cars of grain have been moved, this being a considerable advance on the same period last season, when 30,383 cars were brought into Winnipeg from the west.

**Determined to Enter Thrace**  
Constantinople.—Hamid Bey, the Turkish representative here, informed the Associated Press correspondent that it was certain the Turkish army would declare war on the British if the British attempted to interfere with the movement of Turkish troops across the Straits to Thrace.

## Express Messenger Killed

Kenora, Ont.—Alfred Flowers, messenger in the employ of the Canadian Northern Railway Company, was killed by a Hunter while trying to board a moving train.

# TO PROBE ALLEGED IRREGULARITIES IN INSPECTION OF EXPORT GRAIN

Port William, Ont.—Investigation into alleged irregularities in inspection of outbound grain at the head of the Great Lakes is being made by the Board of Grain Commissioners within the next week or two. It is stated that in a certain case samples supposed to have been taken from a vessel loaded with poor grade grain were handed in, the sample being of a grade superior to that of the cargo. The boat was cleared as being loaded with the higher grade grain, but when the cargo was taken by the consignees, they objected to the grade and demanded re-inspection. This, it is alleged, proved that the samples turned in by the shipper were not the ones that had been taken from the grain loaded on the vessel, but were of wheat of a totally different and higher grade.

So far as known, no charge has been laid implicating any person connected with the fraudulent attempt to pass off inferior grain at higher price, but one of the staff of inspectors has been laid off, presumably for carelessness in the handling of inspection. Meanwhile, a general investigation of this case and any others brought before the Board will likely be held by the grain commissioners within two weeks, probably at a session in Winnipeg.

Vancouver.—"I should like to suggest that you should consider 'immigration' and 'emigration' in respect of the movement of Britishers to the dominions," urged Major A. E. Beldier, of London, head of the Empire Exhibition mission touring the dominions, in a speech to the Canadian Club here. "These changes of residence are not changes of nationality. They are simply moving from one part of their country to another. I suggest that the word migration is used in future. They are still British subjects anywhere in the Empire."

Imperial unity was declared to be the keynote of the proposed exhibition of products of Great Britain, the dominions and the colonies, to be held in London in 1921.

Discussing land settlement, the speaker stated the dominions could not expect to obtain efficient farm labor from the Mother Country. There is employment at home for more efficient farm laborers than we have," he said. "But a man's previous occupation is not necessarily a vital factor in determining what success he will have in a new occupation."

"The best dairy farmer I saw in West Australia was eight months previously a train conductor in Lambeth," he said.

Major Beldier said the Prince of Wales was taking more than a personal interest in conveying the fraternal greetings of Canadian Scottish Rite Masonry to the Council.

## May Winter Again In Arctic

Crawford Party May Not Be Able to Return This Season  
Vancouver.—According to a message from Nome, Alaska, there is every indication that Allan A. Crawford, of Toronto, leader of the party of Canadian men to Wrangell Island last year by Vilhjalmur Stefansson, will have to remain there another winter. On August 18 the power schooner, Teddy Bear (Captain Joseph Bernard) left Nome for Wrangell Island to bring out the Crawford party, which had gone there to hold the Island for Canada.

**Elevator Destroyed by Fire**  
Saskatoon.—Fire destroyed a Brook's elevator at Mervin with 7,000 bushels of grain, half of which was wheat. Two other elevators were saved by the efforts of the local fire fighters with buckets and chemicals. The property was fully insured and the company that owned it will start building again immediately.

## Destructive Typhoon

Honolulu.—Mikahi Jimmy, one of the seven lies of Jap, in Northwestern Japan, has been swept by a typhoon, one of the most disastrous in the islands' history. It destroyed 1,100 homes and damaged 45 vessels, according to advices from Tokyo to the New York Herald. Meanwhile, a general investigation of this case and any others brought before the Board will likely be held by the grain commissioners within two weeks, probably at a session in Winnipeg.

Several months ago complaints were made by British consignees of Canadian wheat, which had been shipped through the United States ports that the grain which they had received was not of the grade which it purported to be. Samples of the grain received in Britain were sent back to Canada, and it was alleged that they contained wheat of varieties which had never been grown in Canada. To what extent these foreign wheats had been added has not been stated.

Under orders from the Minister of Trade and Commerce, former Commissioner J. P. Jones, still a member of the Grain Board, made a visit to the inspection station in the United States ports of shipment, and his report has been submitted to the Department. Meanwhile, United States Consul David G. Hey, of Port William, feeling that this specific case a reflection upon the honesty of the Canadian inspection service, has brought before the Board the fullest and most complete co-operation of the Board of Grain Commissioners in his efforts.

Mr. Jas. Larsen returned from the big Auction Sale at Mr. Vreugdenhil's on Thursday 9th, and reported it the most surprising sale he has held in many a day, nearly everything sold for cash, causing astonishment at the wonderful prices that were got by Mr. Larsen the Auctioneer.

Mr. Carly Rosenback is slowly recovering from a painful accident, having his ribs pressed out of shape from falling into the cellar a distance of 8ft. he is being cared for at the home of Mr. and Mrs. Will Campbell.

Mr. Geo. Barbour, Lake of the Woods Milling Co's manager, received an advancement from Winnifred to Pincher Creek Elevator, Mrs. Barbour will join her husband as soon as a suitable house can be got.

Mr. A. Melhus of Foremost, is filling the agency in the Lake of the Woods Elevator for a limited time.

**Lost All Faith in Alberta**

Mr. and Mrs. Chas. Dowler, Mr. and Mrs. Chas. Shamel and their families left last week via Medicine Hat for the State of Nebraska they have lost all faith in Alberta Farming.

## How the Fordney Tariff Affects Western Canada

Western Canadian producers will be interested in some of the provisions of the new United Tariff. This high wall tariff is certainly exclusive, and to a large extent will affect Western Canada trade in a detrimental way. A glance through the tariff, leaves the impression that it was framed with the idea of shutting out Western Canada products. The following quotations will show the position under the old tariff and the increases under the new one:

**Dairy Products.** Butter, oleomargarine etc. increased from 2 1/2c. to 8c. per pound; cheese from 20c. ad val. to 5c. per pound; milk free under old tariff, now 2 1/2c. per gal. Cream free to 20c. gal.; milk condensed on evaporated, free, to 1c. to 1 1/2c. per pound.

Cattle—weighing less than 100 lbs. free under old tariff, now 1 1/2c. per pound; weighing over 100 lbs. free, now 2c. per pound.

Sheep—Evenly free, now 82c. per head.

Wool—Formerly free, now 11c. to 31c. per pound.

Grains—Wheat formerly free, now 2c. per bushel; wheat flour free, now 2c. per 100 lbs.; flaxseed, increased from 20c. to 40c. per bushel; barley from 15c. to 20c. per bushel; oats from 10c. to 15c. per bushel, natural and rolled oats, from 30c. to 50c. per 100 lbs. rye, free to 15c. per bushel; beans, shorts etc., from 10c. or free to 10c. ad val.; all classes grass seeds, from free to 1c. to 6c. per pound.

Legs—Pig, spruce, cedar, hemlock, formerly free, now 81c. per 100 lb. manufacture of wood, increased from 15c. to 31c.

Pigs—Formerly free, now 12c. per pound; bacon, ham etc. free to 2c. per pound; lard free to 1c. per lb.; lard substitutes, free to 4c. per pound.

Poultry—Laid increased from 1c. to 3c. per pound; dressed from 2c. to 6c. per pound; eggs free to 8c. per dozen.

Horses—Value under \$150 each, from 10c. ad val. to \$30 per head, value over \$150 each, from 10c. to 20c.

Hats—Imported from 82c. to 84c. per top. Potatoes—Increased from 25c. per bushel to 50c. per 100 lbs.

Undressed furs, free; hides free.

beef, formerly 10c. now free  
Vegetables in the natural state from 15c. to 25c.  
Meats, prepared or preserved, free to 30c.

**Toronto Surgeon is Ill With Lockjaw**  
TORONTO, Dr. Norman Allen, a prominent Toronto surgeon, lies in a critical condition here suffering from lockjaw following an operation some two weeks ago. It is believed that his condition is due to some germ in apparatus used during the operation. It is the third case of the kind within a short time in Toronto.

## THE CROSS versus THE CRESCENT

Last Tuesday night witnessed the signing of the Armistice between the so-called Allies and the Turks. The Turks are jubilant over this signing for it is a "Signal and Brilliant Diplomatic Victory" over the Christians, for the Turks gained practically all they demanded, the empire, Eastern Thrace and Adrianople, given to the Turks—the Turks only having to wait a little while for Eastern Thrace, so as to give them the Christian Greeks to flee still further from the Turks.

The Review sees, that the entry of the Turks again into Europe means once more "A hopeless mix up and Wars and much more bloodshed in the Balkans."

This brilliant Victory of the Turks is the price of unity among the so-called Allies.

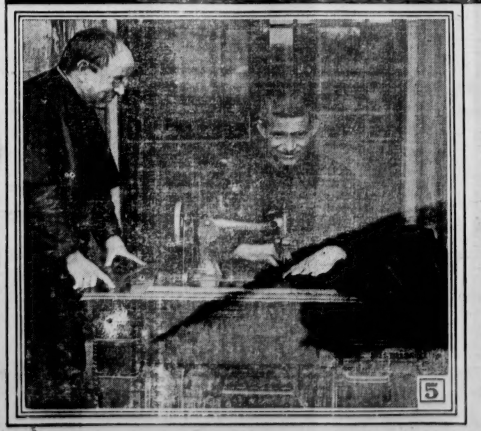

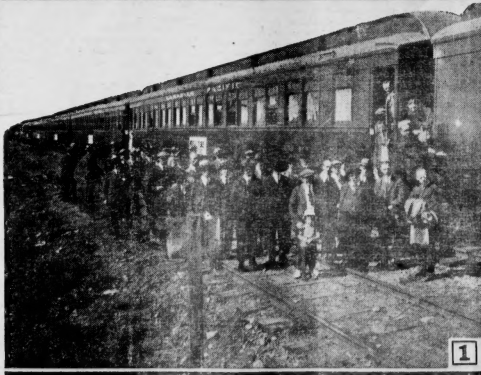

Other generations will read with astonishment of the Turks being allowed to re-enter Europe through the suction and weakness of the Christian nations.

Only two days after signing the Armistice the Turks invaded the neutral zone with 100,000 men yesterday Thursday.

This shows with what scorn they regard the keeping of Treaties.

Looks like another "Scrap of Paper."

**FATHER POINT.**

Father Point Lighthouse. Foghorn Station and Keeper's House.

Father Point is a little Quebec  
caper jutting out into the St. Law-  
rence where it is still an ocean. It is  
here that the immigrant— from  
European countries during the sum-  
mer months gets his first human  
touch with Canada and Canadians.  
Father Point would not appeal to the  
ordinary tourist or holiday mak-  
er. It is off the beaten track and is  
only reached by car from Rimouski.  
It is merely that of a bunch of  
dread of other French Canadian in-  
siders which are more accessible.  
The freighter, slow from off the St.  
Lawrence as they do upon countless  
other fishing villages along the river  
shore. This place is a haven for the  
thirst, the brain-taxed, the over-  
worked and nervous in its media-  
tive calm and brooding hush.

The great interest in the little  
hamlet is for those who go down to  
the sea in ships. Near the extremity  
of the point a modern lighthouse has  
been erected which each night flashes  
its warning light across twenty miles  
of water. In close proximity in the  
great foghorn blasting its message  
when fog engulfs the light. Upon  
the hill stands a wireless station  
which receives advice of every vessel  
entering the Gulf before it proceeds  
up the river. A coastguard and life-  
saving station completes the precau-  
tion for the preservation of vessel  
and man upon the water.

But greatest interest centres in  
the "Bordeaux" the sturdy little gov-  
ernment pilot boat which leaves its  
pier on the point to take out a river  
side for all vessels going up to  
Quebec or Montreal. When the wire-  
less report is received of the ap-  
proach of a vessel all eyes are turned  
riverwards: an all glasses and tele-  
scopes focussed upon the speck on  
the horizon following it as it takes  
shape over the rim of the sea.  
Larger and larger looms up the  
turns out to be a giant passenger

liner of the Canadian Pacific boat  
with a heavy freight of human souls  
for the St. Lawrence ports. When it  
is about half a mile away or so the  
pilot boat leaves its pier and steams  
out to meet its mammoth sister. The  
pilot is, however, not the only man  
to go on board. There is the inspec-  
tor of Immigration, the Coloniza-  
tion Agent of the Canadian Pacific  
and the representatives of the  
company, all having the same object  
in assisting the steamship passengers  
preparing them for debarkation, as  
facilitating the actual landing. As it  
is in a godly little number of  
pilot boat takes out on its short  
voyage.

It takes the speedy little craft but  
a short time to reach the big liner  
now merely drifting with the tide and  
waiting its arrival, and with a det-  
ailed little swing the gliding gracefully  
alongside, the incongruity of the in-  
feriorly suggesting another inter-  
action of dignity and impudence.

All the while the passengers are  
crowding the decks, and hanging in  
a dense mass over the side eagerly  
watching, wondering, and apprais-  
ing. The rope ladder is dropped from  
the liner and swings out from the  
side at each hoove of the vessel. The  
pilot seizes it and climbs up his  
ever hand to be followed by the oth-  
ers who are to make the trip with  
the newcomers up the river. If  
marks and light banter are inter-  
changed, there is much waving of  
hands and fluttering of handker-  
chiefs, the cheeriest of spirits pre-  
vails. Then the little boat puts  
away, the Titan of the seas appears  
to recede, and in the echo of shout  
and cheer the pilot boat turns back  
toward the shore, and faces a  
figure become obscure blur. E. L. C.
